IMPORTANT INFORMATION

- A fabric face mask is only part of the broader solution to curb the spread of COVID-19
- It does not constitute medical PPE
- Fabric masks do not fall in the same category as surgical or medical masks
- A fabric mask should not be used by health care professionals working in a health care environment
- A mask should restrict breathing to some extent. This reflects the tightness of the weave and reduced entry and exit of the virus carrying droplets
- Keep mask away from flame and excessive heat
- This mask must be used in combination with other hygienic methods of prevention
- It is not a replacement for other precautionary measures, such as personal hand hygiene
- Social distancing should be maintained at not less than 1.5m from other people
- The wearer should ensure the mask is appropriately washed and disinfected before use
- The user should avoid touching the mask when in use
- The user should clean their hands after taking off the mask
- Children should be supervised at all times when using a cloth mask
- These masks are not recommended for infants who may struggle to breathe with a mask or even choke if they put parts in their mouths

AVAILABLE COLOURS:

Black/White/Navv
